

## Ques #19 Which Sport?

I know a sport that you should try. A sport that you can have fun, get exercise, make friends, and you can use teamwork. I'm talking about Volleyball!

Great Job!

When you play volleyball you get a lot of exercise. You run to the ball. You can pass the ball, spike the ball, set the ball, and serve the ball. You are getting a lot of exercise. It takes 6 people to get a volleyball team. And guess what? You get to make a lot of friends playing volleyball.

Volleyball takes a lot of teamwork because you have to call the ball and hit it to each other, and then get it over the net. It is fun to use 3 hits to get it over. It is very fun. And sometimes funny things can happen to the ball.

You should really play volleyball. It is awesome! Even boys can play volleyball. There are a lot of good things about volleyball. So try it!
